## GLOSSARY

### ANTI-EVADE (X)

When resolving an attack with this weapon against Enemy Units, the target Unit suffers a -X Modifier to its Evade Roll for this attack (Part 8.7.4, Step 4).

### BUFF [CHARACTERISTIC] (X)

The Unit gains a bonus of X to the specified characteristic until the End of the Round. • Target Number characteristic (e.g. Armour, Hit): reduce the value by X (easier to roll). • Value characteristic (e.g. Speed, RoA): increase the value by X.

### BURST FIRE Y" (X)

When making a Ranged Attack against a target Within Y" of the attacking model, increase this weapon's RoA by X for that attack.

### CRITICAL HIT (X)

Move X dice from the Armour Pool directly to the Damage Pool, bypassing Armour. CRITICAL HIT can never move more dice than are in the Armour Pool.

### CURRENT SUPPLY VALUE

The Current Supply Value of a Unit is its Supply Value at this moment, based on the number of models remaining in the Unit as shown on the Supply Profile (Part 6.1). Update the Current Supply Value immediately whenever a casualty reduces the model count into a lower bracket. The Current Supply Value is referenced when checking whether a Unit may [...]

### DEBUFF [CHARACTERISTIC] (X)

The Unit suffers a penalty of X to the specified characteristic until the End of the Round. • Target Number characteristic: increase the

## GLOSSARY (CONT.)

value by X (harder to roll). • Value characteristic: decrease the value by X (minimum 0).

### DISPLACEMENT

The Leading Model may end a move overlapping this Token or Unit (overrides Part 7.3.1). If the Leading Model ends any Move, Deploy, Run, Charge, Disengage, Close Ranks or Special Ability move overlapping this Token or model, the controlling player of the Leading Model immediately sets it in Base-to-Base contact with the Leading Model. [...]

### ENEMY

All Units, Tokens, and cards belonging to the opponent are Enemies. In team games, all opposing players' Units, Tokens, and cards are Enemies. A Unit may never target a Friendly Unit with an attack unless a rule explicitly states otherwise. [...]

### ENGAGEMENT RANGE

The Engagement Range extends 1" horizontally from any model's base. When two Enemy Ground models are Within each other's Engagement Range, they are Engaged (Part 7.2). Engagement Range is measured horizontally from a top-down perspective, ignoring vertical height (Part 4.1). [...]

### ENTRY EDGE

The table edge assigned to a player by the Deployment Card. Units enter the battlefield from this edge when deploying from Reserves.

### FRIENDLY

All Units, Tokens, and cards belonging to the Controlling Player are Friendly to one another. In team games, all teammates' Units, Tokens, and cards are also Friendly. A Unit's own models are always Friendly to it. [...]

### HEAL (X)

Remove X points of accumulated Damage from the Unit (reduce its Damage Marker accordingly). HEAL cannot return Destroyed models - it only reduces existing Damage. See also: RESPAWN.

### HIDDEN

This Unit cannot be selected as the target of a Ranged Attack or any LoS-requiring Special Ability unless the acting model is Within 4" of it. A HIDDEN Unit is immune to the IMPACT keyword. A HIDDEN Unit may make an Evade Roll against every attack targeting it. • HIDDEN is classified as a Status. >

### INDIRECT FIRE

Ranged Attacks with this weapon may ignore Line of Sight when selecting a target and resolving Damage. The target must still be Within Range. If the target is not within Line of Sight, it may make an Evade Roll against this attack.

### INSTANT

Enemy Units cannot declare or resolve Reaction abilities in response to attacks made with this weapon.

### LONG RANGE (X)

The maximum Range of this weapon increases to X". Measure each attacking model's distance to the target individually. • Within normal profile Range: attack resolves normally. • Beyond profile Range but Within X": the model suffers a -1 Modifier to its Hit roll. If a Batch contains models at both Standard and Long Range, generate the total dice but [...]

### MISSION MARKERS

Numbered Markers are set on the battlefield during Setup at the coordinates shown on the Deployment Card. Each Marker is 32mm in diameter and has two sides: Activated or Deactivated. Markers 1 & 3 are Red, Markers 2 & 4 are Blue, and Marker 5 is Neutral. Mission Markers are the primary scoring mechanism. [...]

### NON-LETHAL DAMAGE (X)

The Unit suffers X points of Damage. Add this amount effectively to the Unit's Damage Marker. Do not remove any models, even if Total Damage exceeds a model's HP. If the Unit subsequently suffers standard Damage, the combined Total Damage triggers casualty removal normally.

### PIERCE [TAG] X

When attacking a Unit with the specified Combat Tag, treat this weapon's Damage characteristic as X.

### PINPOINT

Ranged Attacks with this weapon may target Engaged Enemy Units, ignoring the standard Engagement Status restriction (overrides Part 8.7.3, Step 1).

### PLACE (X)

Choose a Leading Model. Remove it and set it Wholly Within X" of its starting position. Then remove and replace all other models in the Unit, maintaining Coherency (Part 4.4). PLACE ignores Gap Clearance, and elevation requirements. The Leading Model is removed and set directly, not moved along a path. [...]

### PRECISION (X)

After rolling to Hit, move up to X failed Attack Dice directly into the Armour Pool. Treat them as successful Hits for all purposes, including Surge.

### READY

The default state of a Tactical Card or Faction Card. A Ready card is face-up, its abilities are available, and it may be Exhausted to pay resource costs or activate its Special Abilities. All Tactical Cards and Faction Cards begin each Round in the Ready state. [...]

### REPEATABLE

This ability is exempt from the Once Per Round limit (Part 2.7.1). It may be used multiple times per Round and per Activation, provided all Costs and trigger conditions are met each time.

### RESERVES

A holding area off the battlefield where Units remain until they are deployed. All Units begin the game in Reserves. While in Reserves, a Unit: • Cannot be targeted by attacks or abilities unless an ability explicitly states it affects Units in Reserves. • Cannot use Active Abilities, Passive Abilities, or Reaction Abilities unless the ability [...]

### SIDEARM

When this Unit performs a Ranged Attack or Close Combat Attack, models equipped with this weapon may use it, ignoring the normal restriction of one weapon per model (Part 8.7.3). [...]

### SPECIAL ABILITY

A Special Ability is any named ability printed on a Unit Card, Tactical Card, or Faction Card. Every Special Ability falls into one of three categories: Active Ability, Passive Ability, or Reaction Ability (Part 2.7). • Active Abilities require the Unit to be Activated and are triggered immediately before or after an action. [...]

### SPECIALIST

A Unit may include only one model equipped with this weapon. Multiple upgrades configuring more than one instance of this weapon are not permitted (Part 9.1.7).

### STATUS

A category of keyword representing a temporary or persistent operational mode, condition, or statistic modifier affecting a Unit (e.g. BURROWED, SIEGE MODE). Unless stated otherwise, Statuses aren't removed during the Scoring and Cleanup Phase. [...]

### SUPPLY VALUE

The Supply Value of a Unit is the value shown on the Unit Card's Supply Profile corresponding to the Unit's current model count. A Unit's starting Supply Value is determined during Army Building by the Composition Option selected (Part 9.1.6) and defines how many Army Slots the Unit occupies. Supply Value is a dynamic characteristic - as [...]

### WITHIN

A model is Within a distance if any part of its base touches or crosses into that range. A Unit is Within a distance if at least one model in the Unit meets this condition. Within is a less restrictive requirement than Wholly Within. When a rule specifies Within without the word "Wholly," partial overlap is sufficient.

| UNITS                                                                       |        |        |        |       |      |        |        |        |        |     |     |     |    |      |                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |              |     |     |     |    |        |   |    |       |  |        |     |       |  |      |   |                                                                                                                                                                                                                                                          |     |     |     |     |        |        |    |       |       |        |        |      |   |    |   |                                                                                                                                                                                                                                                                |     |     |     |     |        |        |    |       |       |        |        |     |       |   |    |                                                                                                                                                                                                                                                          |     |     |     |     |   |        |   |    |       |  |        |     |   |  |   |   |
